Agenda

17:15 Software Security in the Context of Cloud-Native - Dr. Johannes Späth Co-Founder, CodeShield, Germany

**17:50 DDoS Application Performance Testing
– Marius Mitrofan, CTO, Rungutan, Romania.**

AWS Well Architected Security Principles

- Implement a strong identity foundation
 - Enable traceability
 - Apply security at all layers
- Automate security best practices
- Protect data in transit and at rest
 - Keep people away from data
 - Prepare for security events

AWS Security, Identity and Compliance

Identity

AWS Identity & Access Management

Amazon Cognito

AWS Single Sign-On

AWS Directory Service

Amazon Cloud Directory

Amazon Inspector

Amazon Detective

AWS Security Hub

AWS Firewall Manager

AWS Shield

Amazon GuardDuty

Security

Amazon Macie

AWS Key Management Service

AWS Secrets Manager

AWS WAF

AWS Certificate Manager

AWS Artifact

AWS CloudHSM

Compliance

17:15 Software Security in the Context of Cloud-Native - Dr. Johannes Späth Co-Founder, CodeShield, Germany

17:50 DDoS Application Performance Testing
– Marius Mitrofan, CTO, Rungutan, Romania.

What's next?

Speak at Transylvania Cloud

Speak at the Transylvania Cloud User Group Meetup

We're looking very forward to your talk. Contribution like yours are what builds vibrant communities. Thank you for engaging!

We accept talks that are Cloud Computing Technologies related including and not limited to: Amazon AWS, Microsoft Azure, Google GCP, OpenStack, IBM Cloud for public, private and hybrid cloud technologies.

This could be:

- a quick 10 minutes lightning talk or just quickly showing a cool workaround
- it could be an introduction or overview to a new cloud service
- it could be a full presentation or demo (live or recorded) - (max. 30 mins)

What's in it for YOU?

- by preparing the talk YOU actually understand the topic better
- YOU get the chance to actually double-check YOUR approach with qualified audience - for free
- YOU get an opportunity to network
- To test your thoroughness on your chosen topic, you'd expect an more active than usual Q&A session from our attendees

<https://forms.gle/48P4NdHKB1AJZ3Rq7>

What's next?

Join us for our Romanian Webinars in July!

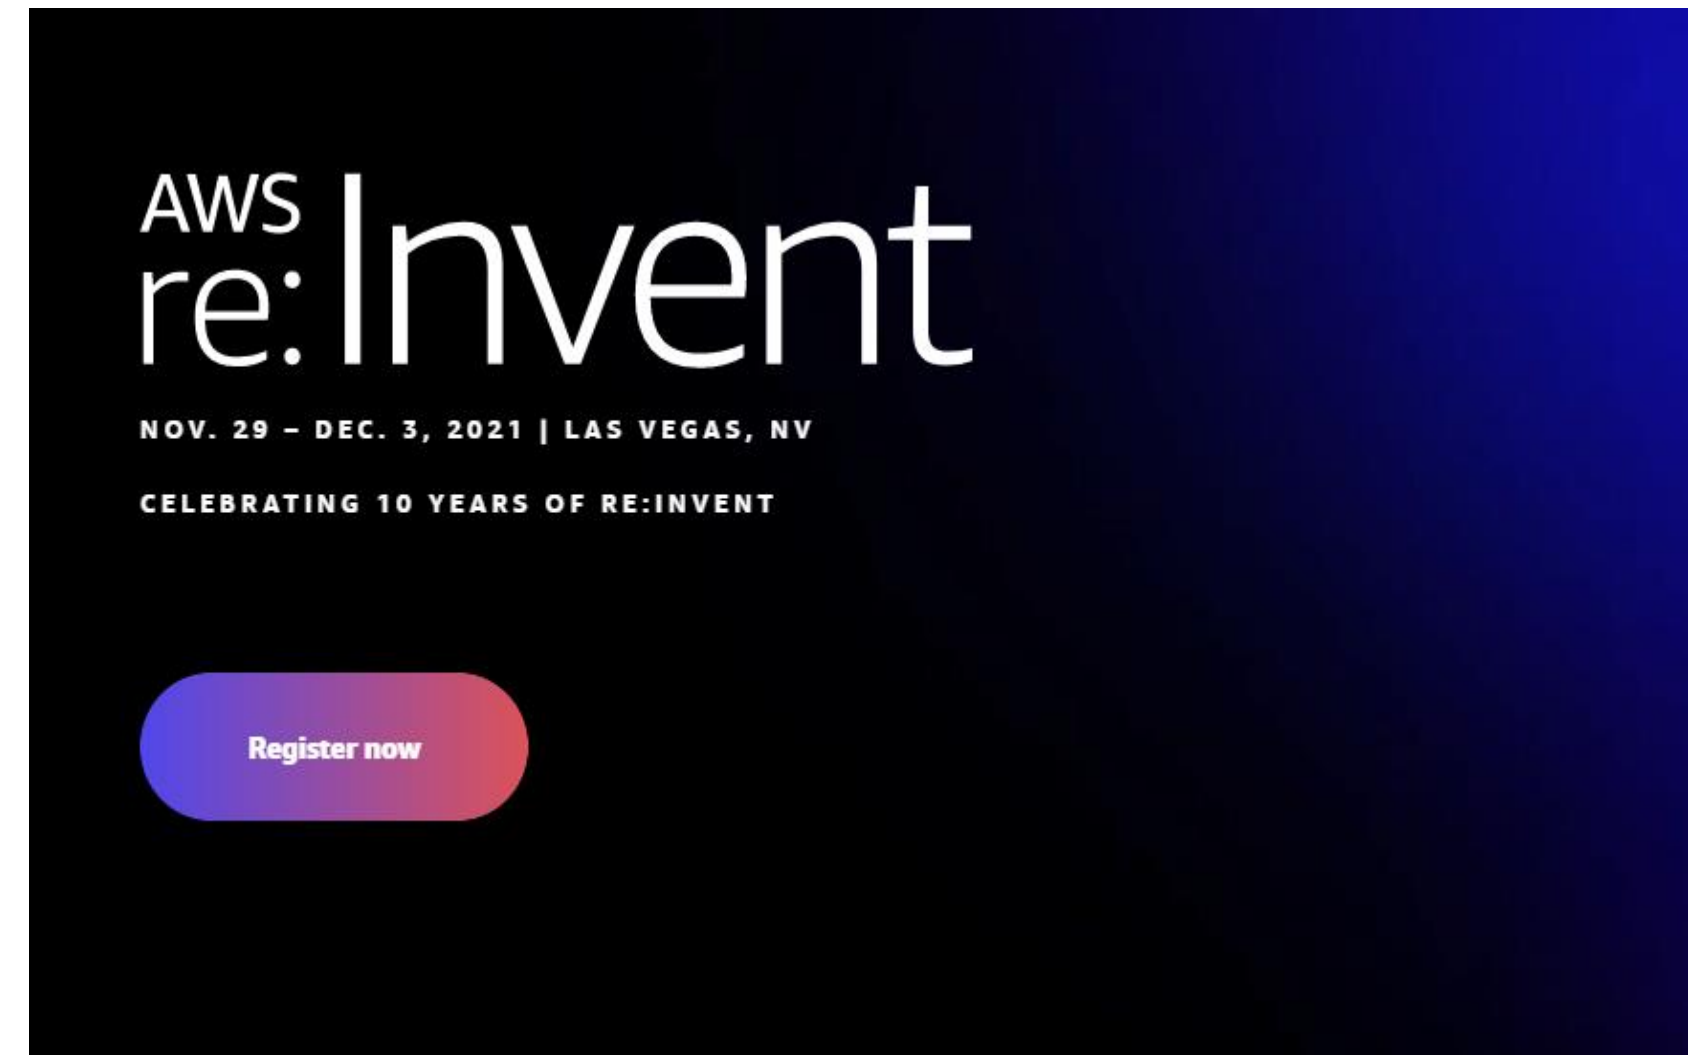

Join us at our webinar miniseries in Romanian where we will focus on Application Modernization and will help you understand the business rationale, benefits, challenges, and the process of on-premise application migrations to AWS. We will be also covering how to deploy UiPath RPA software on AWS with AWS Quick Start with the team who has built this solution for you.

Agenda

- | | | |
|--------------------------|--|---|
| <input type="checkbox"/> | Migration to AWS - modernizing an application (serverless, caching etc.) (Level 200) - in Romanian
July 6, 2021 Wednesday - 14:00 EEST | + |
| <input type="checkbox"/> | Deploying UiPath RPA using AWS Quick Start - in Romanian
July 7, 2021 Thursday - 14:00 EEST | + |
